o o o

CALIF. PAPER SHELL Medium size; shell very tender, kernel large, white, and sweet. Efficient pollenizer for other varieties.

DRAKE Tree of spreading habit, good bearer; nut medium size, soft shell. A late blooming variety.

IMPROVED I.X.L. A heavier bearer than the ordinary I.X. L. nuts almost identical. Tree upright grower, nut large, soft shell.

JORDAN The renowned Spanish Almond. Nut very large, long, shell hard. In the market the nuts are usually sold shelled.

LEWELLING Tree a great bearer; of drooping habit; nut large and good, soft shell, hulls easily.

NE PLUS ULTRA Nuts large and of long, thin shape, paper shell, bears in clusters.

NONPAREIL Rather spreading habit, nut long thin shape paper shell, heavy and regular bearer, ripens early.

PEERLESS Tree strong grower, good foliage. Nut very large, light color, matures early; medium soft shell.

TEXAS PROLIFIC Tall upright grower, bears heavily, nuts good, plump. A good pollenizer for Nonpareil.

A P R I C O T S

o o o

NEWCASTLE Size medium, round, not quite as large as Royal, but more highly colored, ripens 25 days earlier than Royal. Useful as early shipper.

BARRY Large, and regular bearer; excellent for drying; should be planted more.

PEACH About 2 inches in diameter, roundish. Skin yellow in shade; deep orange mottled with brown in sun; flesh fine yellow, saffron color, juicy, rich, and highly flavored. Very successful in warm parts of the state.

ROYAL Practically same as Blenheim. Standard variety for drying, a favorite with the canner; bears heavily.

MCORPARK Very large. Our trees propagated from the Kay Orchard near Hollister, having a record for heavy producing.

BLENHEIM Vigorous grower and regular, prolific bearer. We propagate only from the Payne strain, having a record for heavy producing. In many localities considered best for drying and canning.

HEMSKIRKE Fruit large and roundish, heavy producer. Selected from the Flickinger orchard near San Jose.

TILTON Fruit large, symmetrical, ripening evenly, and one week to ten days later

than Royal. A favorite in the San Joaquin Valley.

o O o

EARLY HARVEST Medium size greenish, very early, flesh white, tinged with red next to the skin.

YELLOW TRANSPARENT One of the very finest early apples. Light yellow skin, nearly white. Fine canner and table fruit.

RED ASTRACHAN Large roundish, skin deep red, greenish yellow in the shade, flesh white, juicy and crisp, tree hardy, early bearer.

RED JUNE Small, bright red, flesh crisp.

SKINNER SEEDLING Originated in Santa Clara Valley. Large, rich lemon yellow, faintly striped with red, Quality best.

CHARLES ROSS Excellent dessert apple, new, very handsome, ripens in Autumn.

GRAVENSTEIN Large, skin yellow, freely marked with light and deep red and orange flesh tender, crisp, highly flavored; strong grower and heavy bearing tree.

RIVERS PEACH Very fine dessert apple, new.

RED BEITIGHEIMER Large, cream colored skin, red cheek flesh white, firm, juicy.

ALEXANDER Very large, snowy, greenish yellow, streaked with red in shade, bright red in sun; flesh yellowish white crisp, tender and juicy. Tree vigorous.

FAMEUSE Medium size; deep crimson; flesh snowy white, tender, juicy; succeeds well in foothills.

KING OF TOMPKINS CO. Large yellowish, mostly shaded with red; flesh yellowish, rich, juicy. Chiefly grown in the mountain regions. Ripens in the fall.

PEASGOOD NONESUCH Very large, handsome, good quality new.

YELLOW BELLFLOWER Very large, conical, golden yellow tinged with red, quality best. keeps well in winter; flesh tender, juicy, crisp.

KNEPPER Seedling Bellflower, originating in Santa Clara Co. Later and better keeper

JONATHAN Medium to large, roundish; light yellow, nearly covered with red stripes and deep red in the sun; tender, juicy, rich, vinous: specially recommended for market keeps till midwinter.

BALDWIN Large, mostly covered with bright red; flesh yellowish white, crisp, juicy good quality.

KING DAVID Large, deep red, suffusing rich yellow, and delicious flavor, Largely planted for the fall trade.

GANO Large, red, very good eating.

WINTER BANANA Large, greenish yellow, fine grained and aromatic. Tree vigorous and hardy. Bears early for a winter apple.

LANGFORD Large, deep red; much esteemed in the Pajaro Valley. Late.

NORTHERN SPY Large; striped; crimson on sunny side, flesh white, mild, pleasant. Late.

BLK. BEN DAVIS (Ripens in October). Keeps until April. This variety is an improved Ben Davis. Large, solid deep dark red, thrifty, heavy bearer, succeeds in all apple regions.

GRIMES GOLDEN Medium; golden yellow; flesh crisp, juicy. Late.

W. W. PEARMAIN Large; greenish yellow; aromatic. Tender crisp, juicy. Very late. Tree vigorous.

DELICIOUS Resembling Bellflower in shape; large, striped and marked with bright red. Juicy and fine grained. Late, good keeper.

RED PEARMAIN Medium roundish; mostly deep red. Late.

YELLOW NEWTOWN PIPPIN Large, roundish, yellow with brownish red cheek; flesh firm crisp, juicy, and with very rich, high flavor.

C R A B A P P L E S

HYSLOP Large, growing in clusters, dark rich red, flesh yellowish.

YELLOW SIBERIAN Small, immense bearer, early.

C H E R R I E S

o o o

TANGSI A Chinese Cherry introduced by the U. S. Department of Agriculture. Extremely early, ripening about a month before any other known variety. Leaves and blossoms very handsome, making the tree strikingly ornamental. New variety.

CHAPMAN A Seedling of Black Tartarian; very early; black, sweet, and a great bearer. Introduced and named by Leonard Coates.

BURBANK Large, early, black, one of the best good early cherries.

CALIFORNIA ADVANCE large, black, and early.

EARLY RICHMOND Early, black, or dark red, small, tart. Very productive and valuable for cooking.

ROCKPORT Large; light colored; rather tender, heavy bearer.

THOMPSON SEEDLING Seedling of Blk. Tartarian and a great improvement on that popular variety. Introduced by us.

BLK. TARTARIAN Very large black; good quality. Very pro-

ductive. Ripens medium early.
Standard shipping variety.

WATERLOO HEART New; dark red; good quality; late, great bearer; tree hardy.

BLK. REPUBLICAN Dark red; very firm; good shipper; immense bearer; late.

LAMBERT Dark red; very large, ripens after Royal Ann. Tree bears early and heavily good shipper.

NAPOLÉON BIGARREAU Very large, pale yellow, becoming amber in shade, richly dotted and spotted with deep red and bright red cheek; flesh firm, juicy and sweet.

BING Very large, almost black, exceedingly firm; fine shipper; late.

PAUL Most valuable dark red shipping cherry; good bearer.

F I G S

o O o

ADRIATIC Skin green, flesh deep pink, very sweet.

CALIMYRA True Smyrna fig of commerce; needs pollenizing from the Capri fig.

KADOTA Rather small; pale green skin; flesh amber. Best preserving fig.

MISSION Black; hardiest variety.

N E C T A R I N E S

o O o

ADVANCE Very early; large size, green flesh, red cheek.

STANWICK ELRUGE Very hardy green flesh, good quality.

LORD NAPIER Large. handsome, hardy, early. Introduced by us.

SPENCER New, early, finest nectarine.

BOSTON Large, orange-red, deep yellow flesh.

MILTON White flesh, skin red, mid-season.

CARDINAL Very fine, quality, earliest, new.

P E A C H E S

o O o

VAINQUEUR Season about with Mayflower. Medium in size, somewhat oblong, suggesting shape of Elberta, but slightly flattened. Basin and cavity marked. Suture not deep but seen on both sides. Yellow, streaked and splashed with red, very handsome. White flesh and a perfect freestone. Skin peels readily. Much sweeter and less watery than Mayflower. Very vigorous grower. Apparently very prolific, having, in spite of youth and exuberant growth, retained so much fruit that thinning was necessary.

MAYFLOWER Earliest varie-

ty; except, perhaps, Vainqueur; skin red, flesh white, excellent quality; medium size; tree hardy.

SNEED Greenish flesh; red cheek; rich, juicy, large; very early.

BRIGGS MAY Early; medium; skin white with bright red cheek. Good shipper.

ALEXANDER Very early; greenish-white flesh, firm, juicy, sweet. Good shipper. Trees productive and bear young.

DUCHESS OF CORNWALL New; vigorous, firm, white flesh; very fine quality, early; great bearer.

WASHINGTON Large; yellow skin; white flesh; very juicy; early. Introduced by us.

STRAWBERRY Medium size; skin marbled red, flesh white rich, juicy. Good grower.

PATTISON Medium; skin very red, flesh yellow, very early.

HALES EARLY Large, early, greenish skin, nearly all red when ripe. Flesh greenish-white.

EARLY ELBERTA Large, very early, fine table peach.

PEREGRINE New, very handsome. Solid red, white flesh, superb quality.

DUKE OF YORK Well colored, very early, fine quality.

ILLINOIS Very large, white

flesh, with red cheek, best quality.

DECKER Early, white flesh red cheek, good table or shipping peach.

DAINTY A small white skinned white fleshed freestone peach from China introduced by the Government. Of wonderful high quality and very fine for home use.

SEA EAGLE Very large, yellow freestone, first quality, early. Tree almost dwarf.

FOSTER Large, deep orange color, flesh yellow, rich, juicy, first quality. Good producer.

EARLY CRAWFORD Large, flesh yellow, sweet, rich flavor. Very productive.

CONKLING Flesh yellow, sweet rich flavor. Better quality than Early Crawford.

CAPT. EDE Very large, similar to Muir, but better.

MUIR Large, firm, rich and sweet. Pit small and free. Splendid for canning, shipping and drying.

AUSTRALIAN SAUCER Flat-shaped, flesh white, seed very small, sweet and of good quality.

PRINCE OF WALES Very large pale yellow, mottled red, flesh white, red at pit, quality excellent. New.

LADY PALMERSTON Very large yellow, excellent quality.

ELBERTA Very large; yellow red cheek; fine grained flesh fine for table, canning, drying, or shipping. Tree prolific and bears regularly.

J H HALE Very large yellow freestone, excellent quality; flesh very firm. Good for canning shipping and drying.

WHEATLAND Rich yellow peach of enormous size. Tree heavy bearer.

LATE CRAWFORD Large yellow freestone. Excellent for canning.

LOVELL Large, almost round; firm; flesh pale yellow. Excellent for table, canning, or drying.

MORRIS WHITE Large, white freestone, very good flavor, fine table peach, late.

WILBUR Very large yellow freestone of superior quality

SALWAY Late yellow freestone.

MORRISSIANA Large; white flesh, skin streaked red; fine.

KRUMMEL Very late freestone, good, rich golden yellow.

HECKEL Large, latest free. Introduced by us,

CLINGSTONES

HENRIETTA Above average size, yellow flesh, red cheek, late, Very popular in San

Joaquin Valley.

PEAK Highly valued as mid-summer canning peach. Flesh clear yellow to pit; small pit, skin slightly colored.

PHILLIPS Large, high colored, clear yellow to pit, which is very small. Especially fine for canning. Grows best on moist soil.

SIMMS Similar to Phillips Cling, but a little earlier.

TUSCAN Earliest good cling. Large size. Skin yellow with red cheek.

P E A R S

o o o

SAN JUAN Imported from Spain; said to be very early. Tree in our Experimental orchard of very vigorous growth.

MADELINE Earliest pear, pale yellow, dotted with brown.

BLOODGOOD Early and desirable for home orchard.

LAWSON Early; medium size, fair quality; very highly colored.

BARTLETT Standard summer pear for all purposes. Early bearer, fruit large, smooth, clear yellow.

TRIOMPHE DE VIENNE New, finest quality; late.

BEURRE HARDY Large; obtuse, greenish-brown, very good, September.

MARGUERITE MARILLAT Very large and showy, with sugary, aromatic flavor; a fine autumn pear.

SECKEL Small, brownish, very juicy and sweet, August, September.

BEURRE BOSC A fine large pear with long neck. Color brownish russet. Very showy fruit melting, juicy and delicious. The tree is a robust grower and a prolific bearer. September.

DUCHESS D'A Very large, handsome, greenish yellow, sprinkled with russet; good.

BEURRE D'ANJOU Large, skin greenish russet with crimson dots, good; late fall.

PITMASTON DUCHESS New, very large, valuable for market, and also a good table pear; ripens early winter.

MME. LYE BALTET Large, greenish, with thin russet, delicate perfumed flavor; a winter pear.

EASTER BEURRE Very large, excellent quality; latest good pear. Standard commercial fruit.

ST. GERMAIN Very large, best for cooking; good bearer.

DU COMICE Very large, yellow ground, faintly blushed crimson, good quality; keeps well.

PASSE CRASSANNE Medium, yellow, russet; quality good; early winter.

WINTER NELIS MEDIUM size, russety, of very fine quality rich and juicy. Very productive.

WINTER BARTLETT Somewhat similar to Bartlett but ripens in early winter.

P L U M S

o o o

EARLIANA Believed to be the earliest plum, similar to Tragedy, prolific. Pleasant flavor. Originated in Vacaville.

BEAUTY Red with yellow cheek. Very good quality. Handsome.

EXTRA EARLY SATSUMA Valuable as an early shipper, a red fleshed plum. Very sweet and good.

CLIMAX Very large, deep red. extremely showy and fair flavor.

FIRST BEST A very early golden plum introduced by Burbank.

TRAGEDY Generally called a Prune, but useful only for table or shipping, very sweet.

AMADOR Sharpe's seedling of Climax, follows it in ripening. Does not crack, a little rounder. Red skin, yellow flesh, semi-cling, very large and sweet. Of Japanese group. New and extremely valuable.

ANITA Oval, blue, yellow flesh, sweet freestone, prolific, large.

SANTA ROSA Large, roundish oval, bright red, very good.

GAVIOTA One of Burbank's latest and best for table and shipping.

WICKSON SEEDLING Similar to Wickson, but a month earlier; rich salmon color; very good flavor.

BECKY SMITH Very large, red, flesh firm, splendid shipper. Tree strong grower, very prolific.

MAMMOTH Originated with R E Burton as a cross between Simoni and Burbank. Of enormous size and very handsome appearance; quite in a class by itself.

FORMOSA Large, cherry red, flesh pale yellow, sweet, valuable for market.

BURBANK Rich cherry red, mottled with yellow, flesh deep yellow, juicy, very sweet, bears early.

SHARKEY A large red, yellow fleshed clingstone plum of high quality. A seedling of Burbank but far larger and later. A fine shipper.

WICKSON Very large, great bearer, fruit handsome and of good quality. One of the best Japanese type.

YELLOW EGG Fruit large to very large; skin deep golden color covered with white bloom; flesh firm, juicy but rather acid. Very fine for cooking and in high demand as a canning sort. When fully ripe is a most attractive des-

sert plum. August.

RAISIN Japanese. Deep purple, clingstone, medium size, sweet, prolific, flesh red and yellow, round. This plum dries well whole and has the exact flavor of a muscat raisin and cooks well dried.

BANANA Japanese and Myro-bolan cross. Originated by R E Burton, Vacaville; small, round, yellow, prolific, sweet plum. Flavor of banana and very delicious. A fine plum for the home orchard.

SACRAMENTO A large red yellow fleshed plum; very prolific and good; slightly clingstone.

MONK Imported from Spain. A round, blue, freestone; yellow flesh mid-season plum; tart, high flavor.

SAPA One of Professor Hanson's hybrids. A medium sized dark skinned, red fleshed plum, very good for cooking.

SATSUMA Japanese blood plum, large, round, flesh clear red; very good for preserves.

HUNGARIAN Very large, deep crimson; juicy and rich.

GIGANTIC Largest plum produced by Burbank; very valuable shipper.

JEFFERSON Best yellow canning plum; very large and of rich sweet flavor.

CRIMSON DROP Rich red color, very sweet and firm; very fine fruit for table or ship-

ping.

WASHINGTON Excellent large plum possessing great merit as a canning sort. Dull yellow color with pale crimson blush on surface exposed to the sun. Flesh yellow, firm and finely flavored. Separate freely from pit. Good grower and bearer. August.

GRAND DUKE Deep blue; very large; a rich plum of first quality.

KELSEY Large, yellowish, good quality; and one of the best shippers, especially for Southern California.

SHROPSHIRE DAMSON Fruit small, juicy and sub-acid flavor. Excellent for preserves. Purple skin. Tree hardy and productive.

KING OF THE DAMSONS Immense bearer and said to be the best of all Damsons.

DOLORES Almost identical with Santa Rosa only it ripens about six weeks later.

PRIMATE Very large, blue freestone; sweet juicy plum, having a flavor different from all other plums. Quality high.

WHITE DAMSON from Thomas Rivers and Sons, England. A light skinned Damson, small, sub-acid, very prolific and fine for kitchen use. Ripens late in August.

UNCLE BEN Very late; rich deep yellow fruit; latest of all plums, keeping into November.

P L U M C O T S

o O o

STANFORD Largest and finest. Cross between Normand Plum and Royal Aprocicot.

APEX Burbank's. best known of the plumcots but smaller than preceding. Plum-like in skin and flesh, but having a distinct cot flavor. One of the earliest fruits.

SHARPE Superior fruit of large size.

P R U N E S

o O o

COATES 1418 A pure French Prune of very large size, averaging 32 to the pound dry, and of superior quality. It cures exceptionally well, either in the sun or dehydrator often coming off the trays ahead of smaller prunes. The tree is noted for its vigorous growth, strong resistance to sour sap, and heavy crops. This is without doubt the greatest improvement to the French prune, is attracting much attention. The governments of Australia and South Africa are planting these trees and the Canadian Government is growing them in Ontario for canning purposes. Their planting is general all over the Pacific Slope.

CLAIRAC MAMMOTH A distinct strain of the Imperial, bears regularly, heavy crops. Usually a better bearer than the ordinary kind.

COATES 1403 - 1414 A dis-

tinct step in the improvement of prune varieties. Both are enormous bearers; pure French seedlings and are everything the most careful planters of "ordinary" French prunes can wish for.

ROBE DE SARGENT A large roundish, blue prune of very good quality; skin rather tender. Ripens a little ahead of French prunes.

STANDARD Burbank's latest. Very large and rich; tree rather slow grower, immense bearer.

SUGAR Liked by many growers because of its early bearing and heavy crops. The fruit ripens ahead of French prunes and so prolongs the season.

Q U I N C E S

o O o

PINEAPPLE Burbank's. Large tender and good flavor.

SMYRNA Enormous size; good quality and flavor.

WEST MAMMOTH A leading variety; very large and good bearer.

W A L N U T S

o O o

CONCORD A very beautiful and symmetrical tree with heavy and rather bright green foliage; ornamental and productive. The nuts are light brown; short, and usually a little flattened at blossom end. The shell is thin and

the kernel is very sweet.

CUT LEAF Cf rather dwarf, weeping growth. Quite ornamental. The nuts are of good quality, though the shell is quite hard.

EUREKA A beautiful tree, bearing bountiful crops of large, slender, brown nuts which are of a very attractive appearance and always sell at a good figure.

FRANQUETTE Tree a very late bloomer, upright in growth, and symmetrical. Desirable for regions where late frosts are expected.

MAUTNER A comparatively new variety, quite similar to Eureka. Tree is more spreading in habit, however, and much more productive of lighter colored nuts. Tree is a rapid grower and precocious bearer. Grown without irrigation on our home place, it has borne more heavily than any other walnut variety.

MAYETTE TREVE A very vigorous tree and an early bearer. The nuts which are set very freely are rather dark in color and are shaped like a rather blunt Franquette.

MORROW MAYETTE A very strong, vigorous and handsome tree well adapted to ornamental uses. The huge nuts of the giant type, are consistently well filled and provided in abundance. Practically blight immune.

PAYNE SEEDLING At present one of the most popular with planters. Tree is very pre-

cocious and is an immense bearer of fine quality nuts. Especially recommended for deep moist soils, or locations where ample irrigation is available.

SAN JOSE MAYETTE (True Wiltz strain) Tree of vigorous spreading habit; very uniformly productive and better suited to dry locations than any other walnut we know of. Nuts large, very blunt and somewhat flattened at apex; smooth bright straw color and very attractive in appearance. It is blight immune and blossoms so late that it may be safely planted where many other varieties are subject to frost damage. Nuts ripen early, hulls opening freely.

WILLSON'S WONDER Probably the best known and advertised of the giant type of walnut. It has proven very satisfactory in some localities.

G R A P E S

o o o

EUROPEAN VARIETIES

BLK. HAMBURG Large berries, fine table grapes; very sweet and rich; rather early.

BLK MALVOISIE Vine strong grower; leaf medium size, oval; bunches large; berries large, oblong reddish black, mid-season, flesh juicy.

BLK. MONUKKA Excellent table grape, carries well, makes a fine raisin, almost seedless. Vine vigorous grower.

BLK. PRINCE Oval, mid-

season.

CORNICHON Bunches and berries large, long, black; crisp and good; late, requires long pruning.

DATTIER DE BEYROUTH Bunches large, loose; berries very large, amber colored; sweet and good for table, raisins or shipping.

✓ EMPEROR Large bunches and berries, firm, light purple, late; a popular shipper.

✓ GOLDEN QUEEN Large bunches and berries, pale green or golden, excellent; rather early

✓ GROS COLMAN Very large, purple, quite late.

HUNISA Large, red, oval, late, almost seedless; new.

✓ MALAGA Large, white, very sweet, good shipper; early.

MATE^ARO A very prolific and hardy wine grape, dark blue. Not so susceptible to mildew as most varieties.

MRS. PINCE Berry round, medium, black; bunches compact, muscat flavor; good shipper.

MUSCAT The great raisin grape, very large and rich.

✓ MUSCAT FRONTIGNAN Very rich, light colored grape of muscat flavor, very early.

✓ ROSE OF PERU Large, sweet, firm, deep blue.

✓ SULTANA Berries small, round firm and crisp, amber

colored; seedless. Fine seedless raisin grape.

SULTANINA ROSEA Bright red; bunches very large; berries oblong, seedless, early.

✓ THOMPSON SEEDLESS Very large bunches, sweet; used extensively for shipping and drying. Good for arbor grape.

✓ TOKAY Very large, bright red, late; a popular shipping grape.

ZANTE CURRANT Black Corinth. Quickly dried; bunches medium; berries small, seedless; skin thin, black. In extensive demand. When dried makes the currant of commerce.

✓ ZINFANDEL Large, dark purple grape; large compact bunches. One of the leading claret grapes of California.

NEW VARIETIES

✓ ACTONIKY Golden, very firm, early.

✓ AGADIA Medium late, white table grape; excellent quality, splendid shipper. Large oblong berry; medium large loose cluster. Vine upright, robust; good bearer. Highly recommended.

✓ ANGULATA Large red table grape, round or slightly oval. Good shipper.

✓ ASKARI Black, early, almost seedless.

✓ AUSTIN SEEDLING White, rather late.

✓ BLK. MUSCAT Excellent ta-

ble grape; berries very large; skin well colored; thin but tough; flesh soft and juicy; delicate muscat aroma. Very rich, recommended for home gardens. August and September.

✓ CORINTH ROSE (Pink currant grape) Early. Good for table, currants or wine. Very good bearer: berry small, seedless: cluster medium large. Too tender to ship a great distance.

✓ DRONKANE Large, red, oval. Table grape.

✓ FLAME MUSCAT Large, red, mid-season.

✓ GOLDEN CHAMPION Large, oval table grape. Excellent for Southern California and hot regions.

✓ GRADISKA Pink, mid-season.

✓ GROS GUILLAUME Large black grape; berries very large often one inch in diameter, rich in flavor, heavy bearer. May be grown on trellis. Ripe in September but may remain on vine for four to six weeks afterward.

✓ MALAGA ROSE Pink, mid-season.

✓ MALVAISIA BLANCA White, mid-season.

✓ MOLINERA GIRDO Large, red, mid-season. Also known as Maraville de Malaga and Red Malaga.

✓ OHANEZ (or Elmeria) White, very late.

✓ OLIVETTE BLANC (or Ladyfinger) White, very late.

O. VANDEVAIN Very large; long pointed berries; very late, vigorous and productive. Ships well; table.

✓ PANARITI (Zante currant) Very small, black seedless; very early; makes the Greek currants of commerce.

PANSE DE ROQUEVAIRE Large, white, mid-season.

✓ PAYKANI Red, very early. Almost seedless.

✓ PERSIAN #20 White, early. Almost seedless.

✓ PERSIAN #21 White, very early. Almost seedless.

✓ PERSIAN #22 White, early. Almost seedless.

✓ PERSIAN #24 White, very early. Almost seedless.

✓ PIMENT Very late table and shipping grape. Pink to rose color; good bearer. Berry large, ovate. Vine robust, up right.

✓ PRUNE DE CAZOULS Medium to late. Black shipping and table grape of excellent quality; very good bearer. Berry large, oblong; vine robust, upright.

✓ RED MUSCAT Rather small, red grape of muscat flavor.

✓ ROSE D' ITALIE Very early table and shipping grape, also makes excellent raisin. Rose color, good quality, good bearer. Berry medium size. Vine robust, upright.

✓ TERRET MONSTRE Very large,

white, mid-season.

✓ TRENTAM BLACK Very large, round, mid-season; finest quality.

✓ VIGNE DE ZERICH White table and shipping grape, very good quality and bearer. Berry oblong, medium to large. Vine robust, upright.

✓ WHITE CORINTH Can be used for table, currants and wine. Berry small, seedless. Cluster medium large, compact. Too tender to ship a great distance.

AMERICAN VARIETIES

✓ AMBER QUEEN One of the early American grapes. Berries large, juicy, and richly flavored; good for trellis. July.

✓ AMERICA Black bunches of large berries, earlier than Concord. Foliage very profuse and extremely vigorous; hence fine for arbors.

✓ BARRY Bunch large to very large; berries large; flesh tender; flavor sweet; quality good. Excellent for table use or for grape pie. Keeps well.

✓ BRILLIANT Red, early to very early; large in bunch and berry; strong grower; self fertile.

✓ CAMPBELL Bunch large and compact, berries large, flesh tender, yet firm enough to keep and ship well; flavor sugary and aromatic. Excellent table grape, splendid for jelly and catsup.

CATAWBA Bunches large and loose; berries coppery red becoming purplish when well ripened. Vinous and rich.

DELAWARE One of the best for table use. Bunch and berries comparatively small but the flavor is very sweet and delicious.

GOETHE Red; bunch and berries are unusually large; berries oval in shape; flesh tender, firm enough for shipping flavor sweet and aromatic. Valuable for table use

ISABELLA One of the most popular arbor grapes. Vine vigorous, bunches of good size berries deep purple; musky flavor.

JEFFERSON Light red; Bunch and berries large. Keeps freshness a long time after gathered; fine quality for home or market use. Ripens about time of Concord.

MOORE'S EARLY Favorite with home growers. Bunch medium to large; berries large to very large; flesh tender, juicy and firm; flavor sugary. Black. Excellent table sort.

NIAGARA Standard white grape. Bunch and berries large to very large. Flesh firm, juicy without much pulp; good flavor. Vine hardy, vigorous and extremely productive.

PIERCE Extremely large, sweet and of extraordinary quality; berries bluish-black vine of vigorous growth and very prolific; esteemed market variety. August.

VERGENNES Origin Vermont which is proof of its hardiness. Bunch and berries large flesh juicy and with little pulp flavor, sweet and delightful.

WILDER Bunch large and heavy, berries large; flesh tender; flavor crisp and sweet. Keeps well. Excellent for grape catsup.

WORDEN Berries larger than Concord, bunch large and compact; quality unexcelled; flavor sweet. One of the leading varieties of the black grape.

B E R R I E S

MAMMOTH BLACKBERRY Strong grower, should be trained low on a trellis, fruit of enormous size, early.

CORY THORNLESS Has a small core and is almost seedless Flavor like wild berry but richer and sweeter than other blackberries, fine for jelly Very early and bear heavily through long season.

DEWBERRY Of trailing habit bearing early and freely. Profitable for commercial growing

GOOSEBERRY Assorted varieties. Medium sized, smooth and thick fleshed, seeds small and few. Good quality.

LOGANBERRY Fruit very large, red, subacid, one year old transplants will bear first year.

RASPBERRY, RANERE Very pro

lific bearer; will bear the first year, and over a very long season. One year transplants.

CUTHBERT One of the best for home use; very fine flavor.

S T R A W B E R R I E S

o O o

BANNER Beautiful berry, delicious flavor; very sweet, fine for home garden and market.

BRANDYWINE Bears well for long season; berries large, good for home garden.

CAROLINA Everbearing; the best of this class, large, rich, red, sweet berries of the finest quality; good for market and home garden.

NICK OHMER Early and heavy cropper; the bright red berries color evenly and hold their firmness and size through a long season.

C I T R U S F R U I T S

o O o

EUREKA LEMON A native of California; tree very free from thorns; fruit medium size, sweet rind, a good keeper, few seeds; very popular especially in coast regions.

MARSH SEEDLESS POMELO (Grape fruit) The trees produce large and regular crops. Fruit slightly flattened shape, thin

rind, satin-like, ivory white color when ripe; pulp tender, having a slightly bitter taste which is pleasant and agreeable; an abundance of juice that has a highly pleasing flavor.

WASHINGTON NAVEL ORANGE Fruit large, solid and heavy; skin smooth and of very fine texture; very juicy, highly flavored, practically seedless only in exceptional cases are seed found; tree is a good and prolific bearer, medium thorny, a rapid grower, although it does not attain a very large size. Bears when very young, commencing as early as one year old from the bud; ripens early.

O L I V E S

o O o

MISSION Large, for pickling or oil.

MANZANILLO Large, ripens early, for pickling or oil.

PYRUS USURIENSIS

o O o

(Wild Pear Seedling) These are supposed to be immune to pear blight, but cannot be guaranteed. We offer them for experimental purposes. After testing some may be found to be absolutely resistant. Then they can be used to double work a young pear orchard, and so protect it from blight. Strong 2 year seedlings.

SUGGESTION:

File these descriptive lists in loose leaf form; we will mail out additional ones from time to time, uniform in size. A heavy paper cover will be furnished for this purpose, free of charge, to those who apply.

Catalogues are often mislaid when most wanted, and so serve neither buyer nor seller; but by keeping them all filed together they will always be at hand. No matter how expensive and complete a nursery catalog may seem, it is no sooner printed than we find some new fruit or shrub to tell about -- or perhaps it is a seasonal suggestion regarding the care of trees. Therefore we believe that those who wish to keep such matter on hand, will find this method very convenient.

1/2-5/8", 3/4 ft gr	50	40	35	30

WALNUTS on Cal. Blk. This stock is EXTRA FINE-smooth union
both sides, plump wood and big active buds. In spite of
copious irrigation the growth stopped early, leaving the
trees smaller, but superior to most trees on the market.

3/4" up, 6/8 ft gr	\$1.75	\$1.50	\$1.25
5/8-3/4", 4/6 ft gr	1.50	1.25	1.00
